# FRIGIDAIRE COMFORT QUALITY PLEDGE AND WARRANTY

## **Frigidaire Is Unsurpassed In Protection Today, Tomorrow, and Always**

**F**rigidaire units offer an incredible customer promise that protects your investment for years to come.

Every product offers one of the best warranties in the industry, a 10 year limited warranty on all parts.

Plus our proprietary Comfort Quality Pledge which states if within the first ten years\* if the compressor or the heat exchanger fails, we will replace the entire unit.

Here's how our Quality Pledge works: Your Frigidaire heating and cooling unit(s) will be replaced with new equivalent equipment should your compressor or heat exchanger fail during the first 10 years (with product registration) or five years (without product registration) of ownership. Frigidaire split systems must be installed with a Frigidaire matched indoor coil or air handler.

Here's how our Warranty works: All parts on your Frigidaire heating and cooling unit(s) are covered by a 10-year warranty with product registration, or five-year warranty without product registration.

Also, when registered our furnaces which carry a 20-year limited warranty, will be upgraded to a limited lifetime heat exchanger warranty.

Simply register on line at [www.frigidaire.net](http://www.frigidaire.net) or return product warranty postcard, and your product warranty and pledge will be upgraded from 5 to 10 years.

**LIMITATIONS:** For all systems not registered within 60 days of purchase, the five year parts warranty and standard quality pledge applies. Standard compressor and heat exchanger warranties apply for applicable products not registered. See actual warranty for details. Warranty and Quality Pledge are applicable to original owner; single-family, owner-occupied residences. This extended product coverage is non-transferable. See warranty document for coverage on commercial and multi-family properties if applicable.

A labor fee up to \$250 will be paid to help replace the failed piece of equipment to the servicer.

\* ES/ET Builder's Series models carry a 1-year Quality Pledge.

- **Delivering peace of mind unit after unit.** Every unit is checked at least three times during each manufacturing stage. This is an average of 150 quality checks as your unit is being built. In addition, all electrical and mechanical components are 100% fired and tested on the manufacturing line. You are assured a quality unit is delivered to your home.

- **Extending the life of your unit.** High quality does not just happen. It must be engineered from the start. All products are designed for maximum performance.

- **Total comfort never felt so good or sounded so quiet.** Great airflow and quiet performance are part of the Frigidaire comfort equation. A precision work of art that delivers season after season.

- **Aesthetically pleasing and designed for easy care.** Smooth and practical lines make your Frigidaire eye appealing. All outdoor units are finished with a silicone-protective polyurethane finish. This step helps to protect your unit from erosion and scratches.

- **Built to last.** Your unit will provide years of trouble-free and reliable service.
